Location: Kollam, Kerala, India

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science & Engineering

MES Institute of Technology and Management, Kerala (2021 - 2025)

CERTIFICATIONS

Python Full Stack Development

ARCITE School of Data Science (February 2026)

PROJECTS

Immigration Hub NZ (Client Website)

Challenge: Build a highly performant and accessible web presence for a licensed consultancy.

Solution: Developed a responsive React & Tailwind site optimized for SEO and lead capture.

Outcome: Successfully launched public website with stable lead generation.

Doctor Appointment Booking System

Challenge: Build a secure appointment booking and patient schedule collision prevention platform.

Solution: Python, Django REST backend, React frontend, PostgreSQL, JWT Authentication.

Outcome: Functional scheduling backend engine with secure doctor/patient routing.

E-Commerce Web Application

Challenge: Design a lightweight frontend shopping catalog with cart caching.

Solution: Built React SPA using Context API and LocalStorage persistence.

Outcome: Responsive interface with smooth animations and persistent local cart state.
